

DOCK CUSHION SEALS

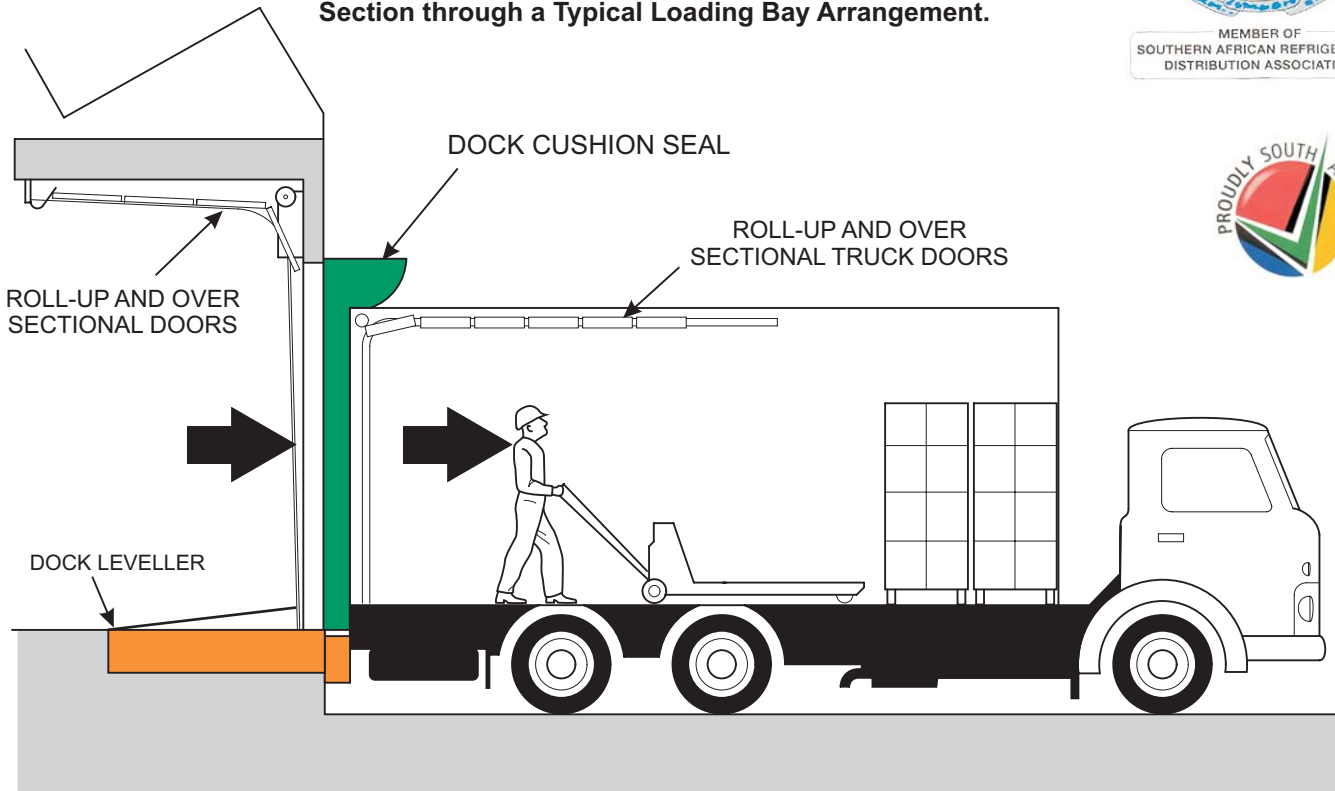

Dock Cushion Seals are heavy-duty 300mm x 300mm foam pads that are fitted around the outside of a door opening to make a seal around the back of a vehicle when loading or unloading.

MEMBER OF
SOUTHERN AFRICAN REFRIGERATED
DISTRIBUTION ASSOCIATION

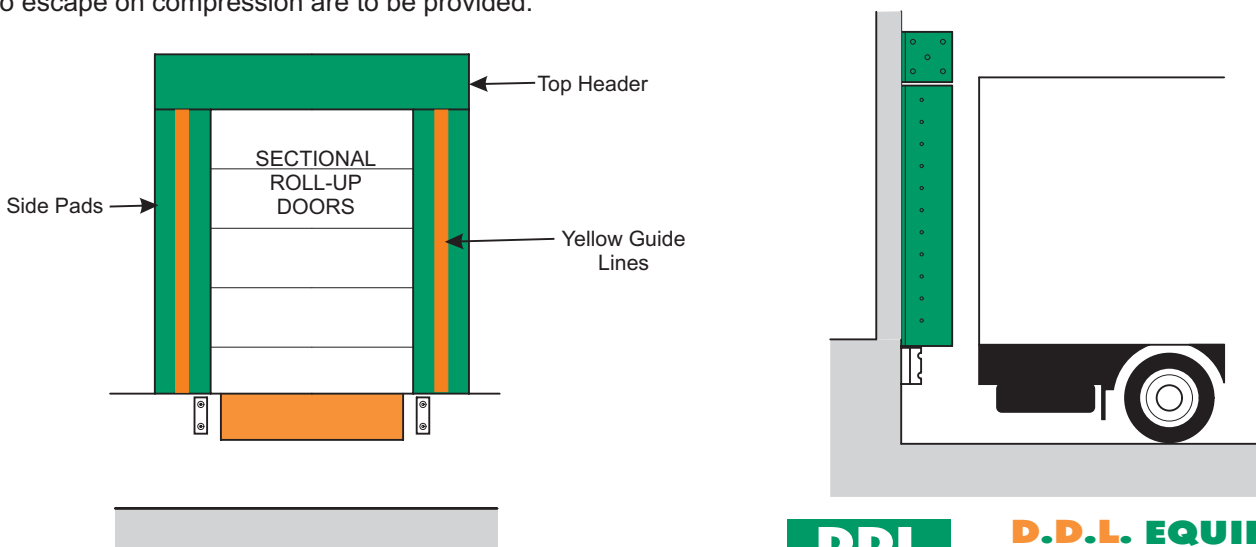

Section through a Typical Loading Bay Arrangement.

D.D.L Dock Cushion Seals combined with D.D.L Sectional Roll-up and over doors and vehicle doors give the perfect answer for efficient loading-bay design.

Specifications

Dock Cushion Seals, 1 Top Header, 1 Curtain & 2 Side Pads which consist of 300mm x 50mm primed galvanized backing plates together with special selected density polyurethane foam, covered externally with two (2) hard-wearing nylon fabrics. The front face of the seals are smooth with yellow guide strips on the side pads. Suitable ventilation holes, to allow the air to escape on compression are to be provided.
